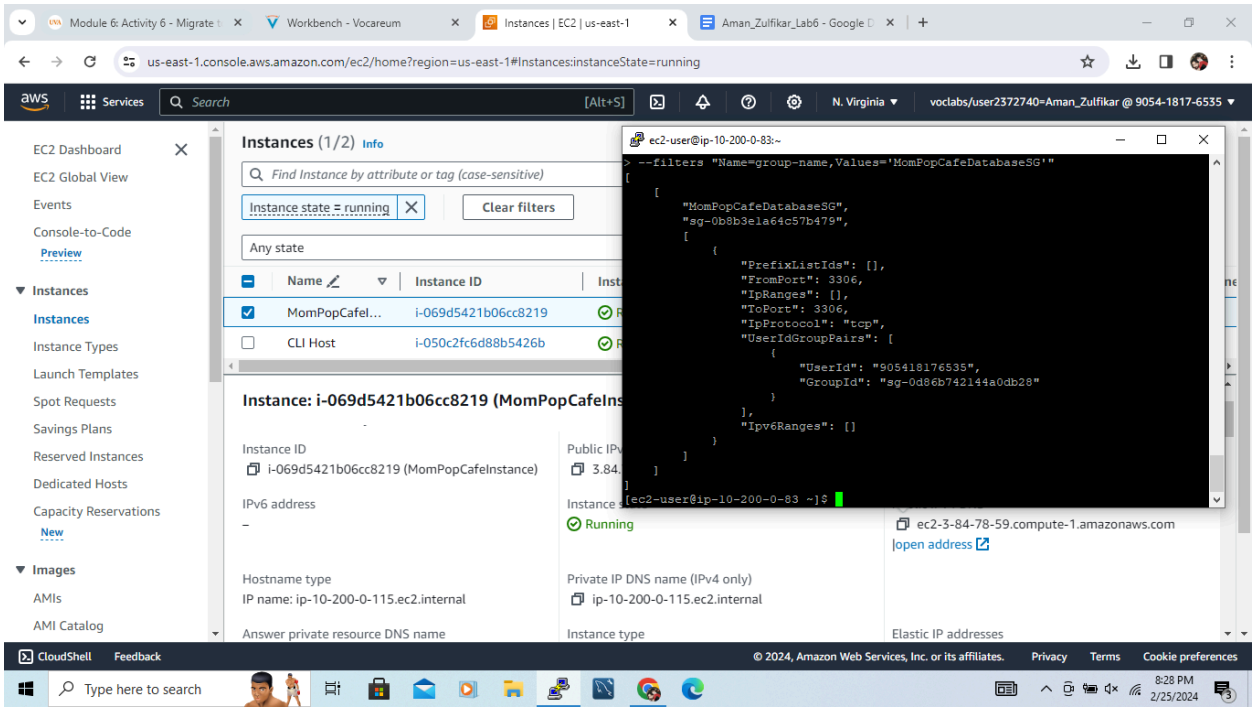
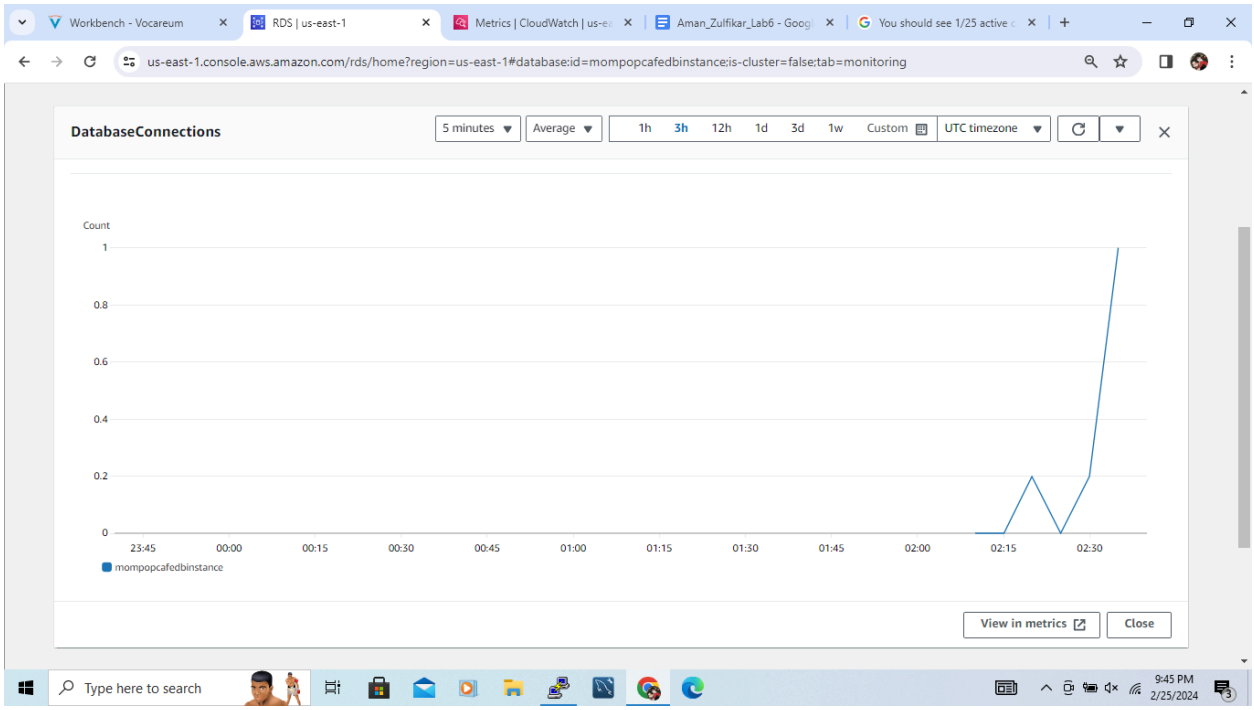
Lab 6: Migrate to Amazon RDS

TWO SCREENSHOTS REQUIRED

1. After successfully completing **step 36**, take a screenshot of your command line and paste it below. You should have on screen the output of your *MomPopCafeDatabaseSG* showing port 3306 communication allowed. If any of this is incorrect, please wait a few minutes, refresh the screen, and revisit the instructions.



2. After successfully completing **step 70**, take a screenshot of your AWS console. You should see 1/25 active connection in your "DB Connections (Count)" section within the MONITORING tab. If any of this is incorrect, please revisit the instructions.



Workbench - Vocareum
RDS | us-east-1
