

Lab 9: Monitoring Infrastructure

TWO SCREENSHOTS REQUIRED

1. After successfully completing **step 28**, take a screenshot of your AWS console and paste it below. You should have on screen the results of the command you ran confirming **Overall status: Success**. If any of this is incorrect, please wait a few minutes, refresh the screen, and revisit the instructions.

2. After successfully completing **step 87**, take a screenshot of the email you received with subject "AWS Notification Message" that confirms your alert for the stopped instance. If any of this is incorrect, please revisit the instructions.
