

Lab 12: Automating Deployments with AWS CloudFormation

TWO SCREENSHOTS REQUIRED

1. After successfully completing **step 23**, take a screenshot of your console and paste it below. You should have on screen the output showing your **Resources** tab with your recently created bucket. **YOU MAY NEED TO HIT THE REFRESH BUTTON A FEW TIMES UNTIL YOU SEE AN 'UPDATE_COMPLETE' MESSAGE**. If any of this is incorrect, please wait a few minutes, refresh the screen, and revisit the instructions.

2. After successfully completing **step 26**, take a screenshot of your console and paste it below. You may need to wait a minute for your stack to complete updating. Go to EC2 and show your 'App Server' instance in running status. If any of this is incorrect, please revisit the instructions.
