

Lab 3: Creating Amazon EC2 Instances

TWO SCREENSHOTS REQUIRED

1. After successfully completing **step 20**, take a screenshot of your console and paste it below. You should have on screen the output showing your Bastion Server in the RUNNING state. If any of this is incorrect, please wait a few minutes, refresh the screen, and revisit the instructions.

2. After successfully completing **step 47**, take a screenshot of your browser showing the Widget Manufacturing Dashboard. If any of this is incorrect, please revisit the instructions.
